Education

JSS ACADEMY OF TECHNICAL EDUCATION, NOIDA

Bachelor of Technology in Electronics and Communication Engineering

August 2019 – July 2023

8.17 CGPA

Work Experience

Evertz Microsystems

Oct 2025 – Present

Software Development Engineer (SDE) - 2

- Enhanced a Java Spring application "Mediator" by developing a new playlist management BINLIST feature for channels using WebSocket APIs.
- Improved application performance by developing versioned APIs and improved quality by strengthening test coverage with schema validation and Mabl-based end-to-end automation.

Evertz Microsystems

Aug 2023 – Sept 2025

Software Development Engineer (SDE) - 1

- Develop and maintain RESTful API endpoints, creating shared OpenAPI/AsyncAPI schemas to improve consistency, and implementing a centralized error-handling decorator to enhance system stability.
- Led the development of two high-priority features—an enhanced content registration workflow and a content purging system—delivering both ahead of schedule.

Evertz Microsystems

Feb 2023 – Aug 2023

Student Software Development Engineer

- Developed API endpoints to retrieve media metadata and manage associated tags, improving data accessibility.
- Contributed to key backend microservices (Content Service, Tag Service, Metadata Extraction) by delivering new features and resolving bugs.
- Applied knowledge of microservices architecture and cloud infrastructure while working extensively with serverless AWS services.

Skills

Languages

Python, Java, C, C++

Tools & Tech

AWS (Lambda, S3, EC2, DynamoDB, API Gateway), MariaDB, Mabl, Object-Oriented Programming (OOP), Computer Networks, Data Structures & Algorithms, RESTful APIs, Linux, FastAPI

Frameworks

Spring, Django, Boto3 (AWS SDK for Python)

Achievements

- Demonstrated strong project management by successfully leading and delivering two high-priority features to the product team on schedule.
- Received consistent 4/5 ratings across the last four performance reviews, highlighting strong reliability and teamwork as noted by managers and peers.
- Rapidly onboarded to a legacy Java Spring codebase, successfully implementing a new feature with comprehensive test coverage.

Activity

JSS-Quanta (official ECE society/club of college)

Oct 2019 – July 2023

Embedded and Web Developer

- Conducted 5 workshops, 3 orientation programs, and mentored juniors, engaging over 600 students and fostering technical growth in IoT and machine learning.
- Contributed to the society's official website and technical projects using HTML, CSS, JavaScript, Python, Arduino Uno, NodeMCU, RFID, and IoT systems.
